

Qwood Glazing Bar

Qwood profiles: QW-BB2, QW-BB3, WQ-BB4, QW-BB5, QW-LB1,
QW-OB1, QW-OB2, QW-SDA1, QW-SDA2, QW-SDA3

Qwood glazing bars can be fixed to glass with double sided foam glazing tapes. The superior cutting quality versus timber allows precise butt, lap and half joints to be achieved. Standard woodworking methods and machinery can be used to create these. Bars can also be machined to accept widely available bar clip systems as required.
